

MARINE SYSTEMS CORPORATION

MSC SEAPORT Enhanced Contract N00178-14-D-8018

Marine Systems Corporation (MSCorp) has been awarded a second SEAPORT Enhanced (Seaport-e) contract, as a follow on to our original Contract No. N00178-05-D-4446, to provide engineering, technical and programmatic support services to the NAVSEA Warfare Centers and all Virtual SYSCOM activities. The MSCorp Team has been approved to provide support in all seven zones for all twenty-two functional areas. The Multiple Award Contract is a four year base period of performance with two five year award terms. The MSCorp Team is extremely proud to offer the extensive, successful and proven experience of our team to Seaport-e community.

The Seaport-e mission: In 2002, the Chief of Naval Operations (CNO) promulgated *Seapower 21*. *Seapower 21* provides a framework to align, organize and integrate the U.S. Navy to meet the wide variety of challenges that lie ahead. The CNO called upon the entire Navy to find ways to become more efficient and effective. To meet *Seapower 21* objectives and to increase efficiency, the NAVSEA Warfare Centers established the Seaport Enhanced (Seaport-e) Multiple Award Contract (MAC) vehicle, using a web-based, e-business procurement Portal, to facilitate performance-based service acquisition, leverage buying power, improve business intelligence and reduce cycle time. In October 2004, the Virtual SYSCOM Commanders formalized an agreement to expand the ordering community of Seaport-e to include all Virtual SYSCOM activities and to leverage the success of Seaport-e in achieving the aforementioned objectives across the Virtual SYSCOM. Additionally, other Navy activities, including the Military Sealift Command, Strategic Systems Programs, and the United States Marine Corps have chosen to use Seaport Enhanced.
