

April 2018Please send resumes to jobs@mscorp.net**Location: Marinette, WI****Production Department Trial Card Management Support, Littoral Combat Ship (LCS) program.**

Responsibilities include:

- Managing the LCS 2 Class deficiency/trial card activity in Technical Support Management (TSM), a web-based ORACLE relational database system consisting of trial card deficiencies identified throughout New Construction. The data contains essential elements of a deficiency found in the OPNAV 2-K form. This includes data such as the description of the deficiency, location, contractual screenings, EWBS codes, Ship Specifications, Equipment Noun Names, Defect Codes, and investigative responses, which may be GFE related.
- Manage Electronic Trial Card (ETC) which is a desktop application installed on Supervisor of Shipbuilding (SUPSHIP) and Sea Trials computers in order to document the deficiencies that are later uploaded into Technical Support Management (TSM).
- Provide routine analysis of the deficiency data and customized reporting using complex queries and modifying the data structure as required. Develop and provide numerous reports to customers for trend analysis relating to production and material issues. Skills with Microsoft Office, particularly Excel/Access, considered a plus.
- Perform duties of Administrator for Electronic Trial Card (ETC) and Technical Support Management (TSM) applications; duties include training and supervision of personnel in use of and processing workflow data with those applications, providing account administration to manage users of the applications, providing quality assurance checks for data forwarded by Navy inspectors, and assisting in troubleshooting programming issues associated with TSM and ETC. Additionally, test ETC/TSM applications in all three phases of software development (ALPHA, BETA, and CAT Testing) as revisions are created to improve trial card process efficiency.
- Supporting On-site Trial Card Management lead during ship trials in support of Builders Trial (BT) and Acceptance Trial (AT). Provide technical support and ETC database knowledge for INSURV Inspection teams and Supervisor of Shipbuilding (SUPSHIP) QA/ENG inspectors during Trials and manage the post-trial screening conferences.
- Assist counterparts at Mobile, AL shipyard in their efforts to perform data mining tasks by providing knowledge and expertise of the databases in use and the applications used to perform the analyses such as Microsoft's Access and Excel. Potential to provide onsite support in Mobile, AL during trials evolutions.

Qualifications:

- 5+ years' experience in the shipbuilding industry preferred
- Skill with Microsoft Office, especially Excel/Access, a must.
- Basic Help Desk level understanding of computers and software preferred, more advanced a plus

- Technical background and knowledge of USN ship systems and equipment
- Strong organizational, problem-solving, and multi-tasking skills
- Strong initiative and commitment to deadlines
- Military and/or Department of Defense experience a plus

Work conditions are as follows:

- Work location is Marinette, WI.
- Mandatory participation in at-sea trials
- Full-time, on-site presence required
- Periodic travel may be required
- Benefits available (401K, medical and dental coverage)
- Salary negotiable
- Must be a US Citizen
- All candidates must be able to obtain a security clearance
